

Key Stage 2 results 2026

How our Year 6 pupils did in their end of Key Stage 2 assessments in summer 2026.

Highlights from this year

18%

reached the higher standard in reading, writing and maths combined, double the national figure of 9%

75%

reached the expected standard in writing, above the national figure of 73%

24%

were working at greater depth in writing, compared with 13% nationally

About this year's cohort

We are a one-form entry school, so each year group is one small class. In a class this size, every child makes a big difference to our percentages, and a single pupil can account for several percentage points. Each of our classes brings together a wide variety of needs, backgrounds and personalities, and this year's Year 6 was no exception: 65% of the class were disadvantaged pupils and 24% had special educational needs. We are very proud of how hard every one of them worked.

Expected standard

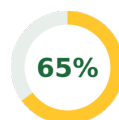

The percentage of our pupils reaching the standard expected by the end of Year 6.

Average scaled scores

Test marks are turned into a score between 80 and 120. A score of 100 or more meets the expected standard, shown by the line on each scale, and our average was above 100 in every test.

Maths

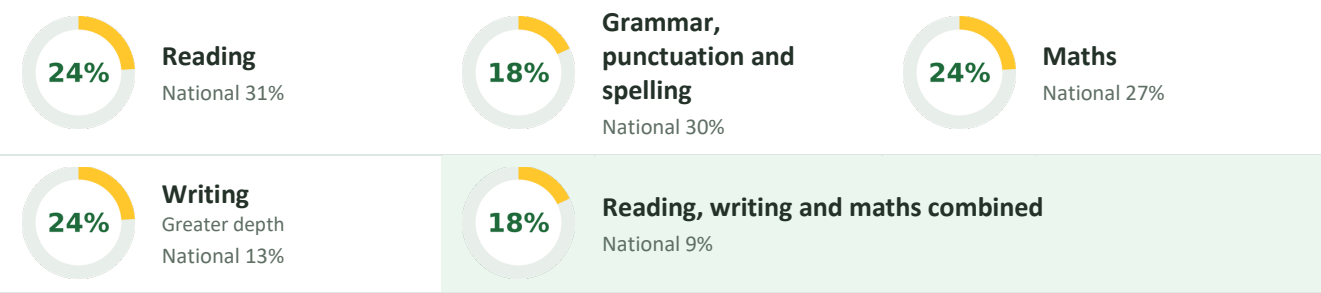

101

National 105

Higher standard

The percentage of our pupils working above the expected standard: a scaled score of 110 or more in a test, or working at greater depth in writing.

What the terms mean

Expected standard

A scaled score of 100 or more in a test, or a teacher assessment of working at the expected standard.

Higher standard

A scaled score of 110 or more in a test, or a teacher assessment of working at greater depth in writing.

Scaled score

Test marks converted to a score from 80 to 120, so results can be compared fairly from year to year.
